Biz1 ClinicPulse Platform Overview

Biz1 ClinicPulse is an enterprise clinical management and healthcare analytics platform designed to coordinate patient care, monitor physician treatment performance, and administer promotional treatment discount coupons.

- **Clinical Operations & Doctor Analytics:** Comprehensive patient registry tracking doctor performance metrics, patient visits, and clinical treatment allocations.
- **Promotional Coupons & Discount Balances:** Dedicated coupon management tracking coupon codes (e.g. `CPN-100`), client allocations, treatment procedures, insurance coverage, and remaining balances.
- **Multi-Criteria Search & CSV Export:** Flexible filtering by coupon status, patient name, minimum/maximum financial limits, with one-click CSV export and instant coupon creation.

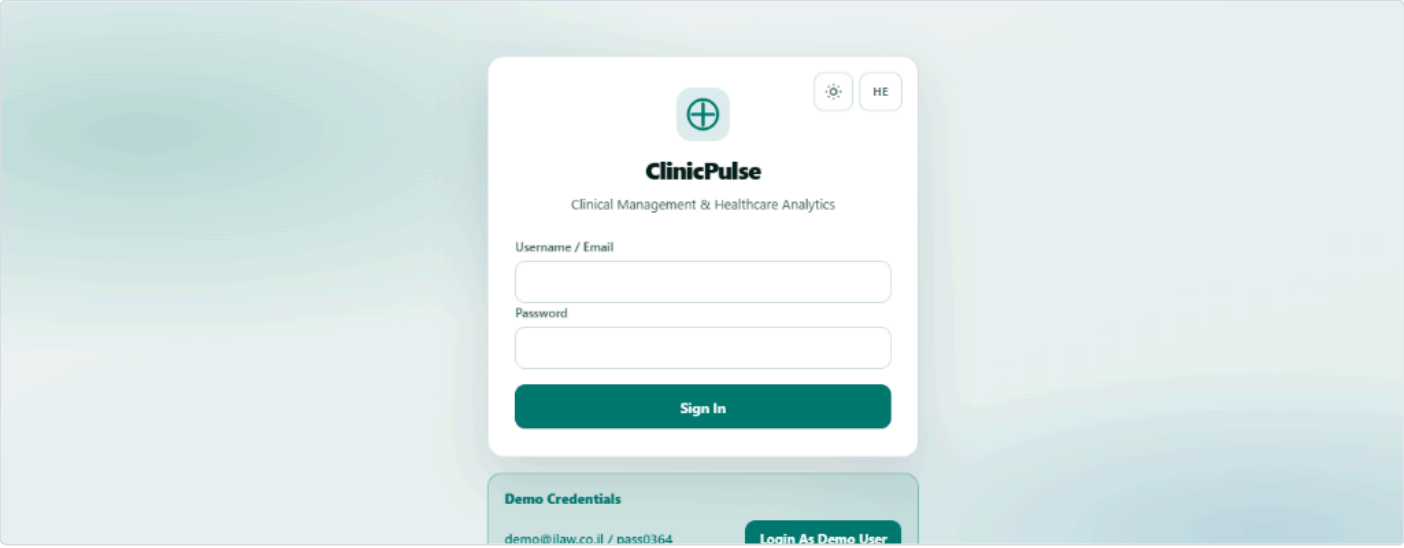
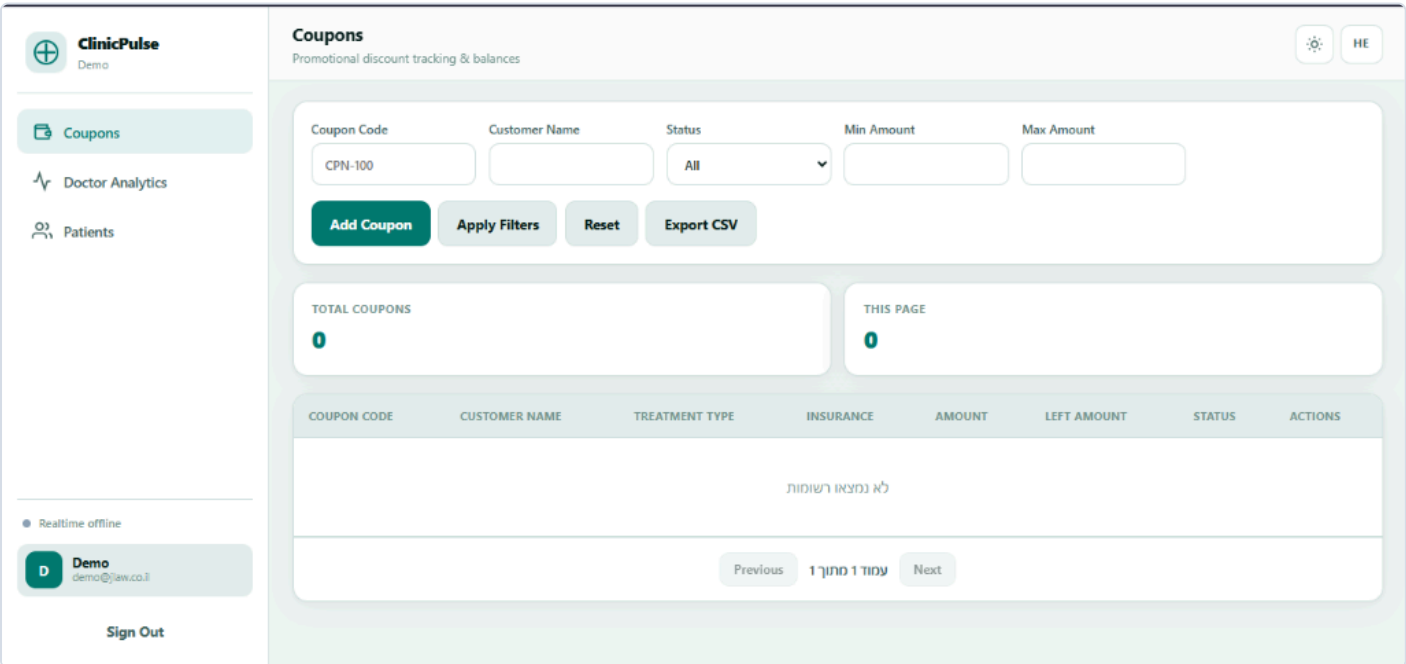
SYSTEM ACCESS CREDENTIALS · ACTIVE TEST ACCESS

Parameter / Control	Value / Format	Description & Instructions
Login Portal URL	https://apps.bull36.com/demo/appointment/index.html	Direct web access URL to the ClinicPulse clinical portal.
Login Username	`demo@jlaw.co.il`	Valid operator account identifier to authenticate into the platform.
Login Password	`pass0364`	Standard demo passkey; click password visibility toggle to view input.

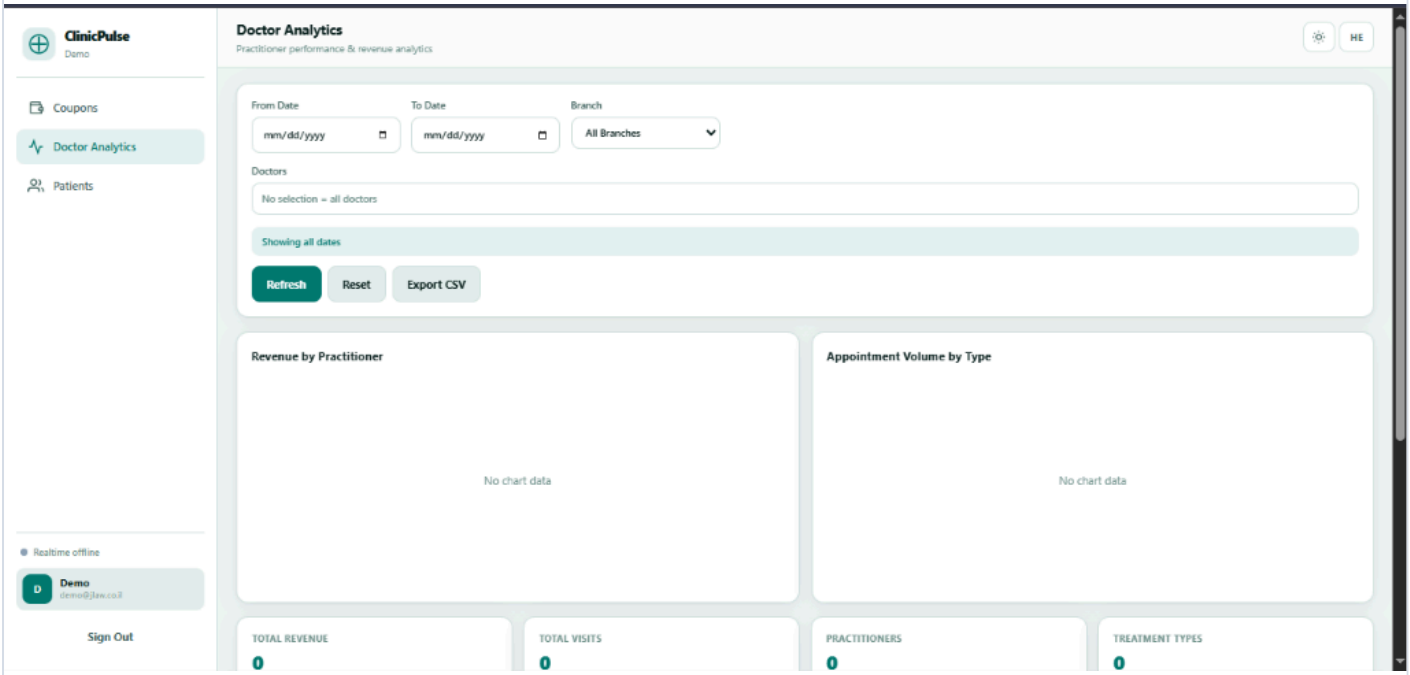




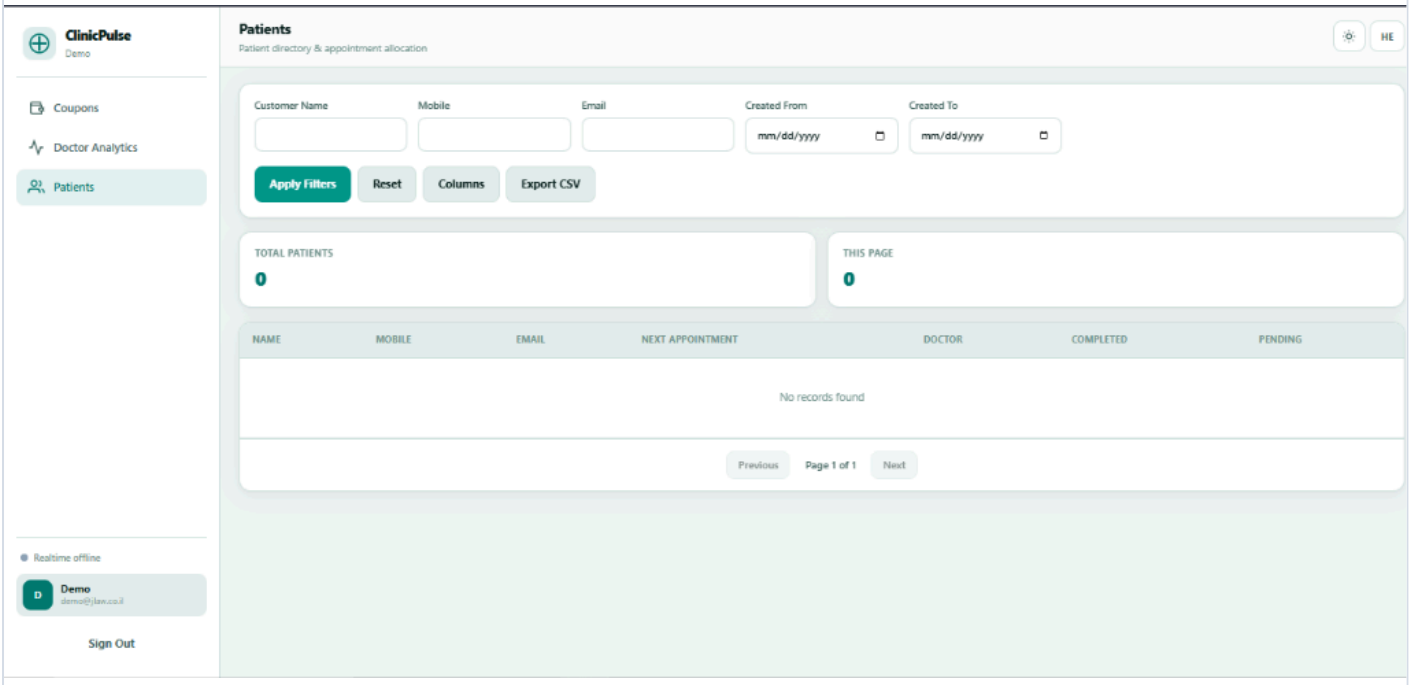
• Doctor Analytics & Practitioner Performance Telemetry

CLINICAL ANALYTICS

- **Physician KPI Intelligence:** Comprehensive clinical analytics dashboard monitoring core healthcare metrics: Total Revenue, Total Visits, Active Practitioners, and Treatment Type breakdown.
- **Multi-Dimensional Filtering:** Granular date range pickers (From/To dates), medical branch selection, and practitioner dropdown enabling targeted performance evaluations.
- **Visual Revenue & Volume Charts:** Interactive visualization widgets tracking Revenue by Practitioner and Appointment Volume by Treatment Type with one-click CSV report export.



• Patient Directory & Clinical Care Allocation Ledger

PATIENT CARE


- **Centralized Patient Registry:** Structured master directory tracking patient name, mobile contact, email address, assigned attending doctor, and scheduled next appointment.
- **Dynamic Cohort Search:** Multi-parameter filter engine querying by patient name, contact numbers, and intake date intervals, with custom column configuration controls.
- **Care Lifecycle Tracking:** Card-level status indicators tracking Completed clinical sessions vs. Pending appointments, with universal CSV export for external medical records.
