Biz1 Files Data Platform Overview

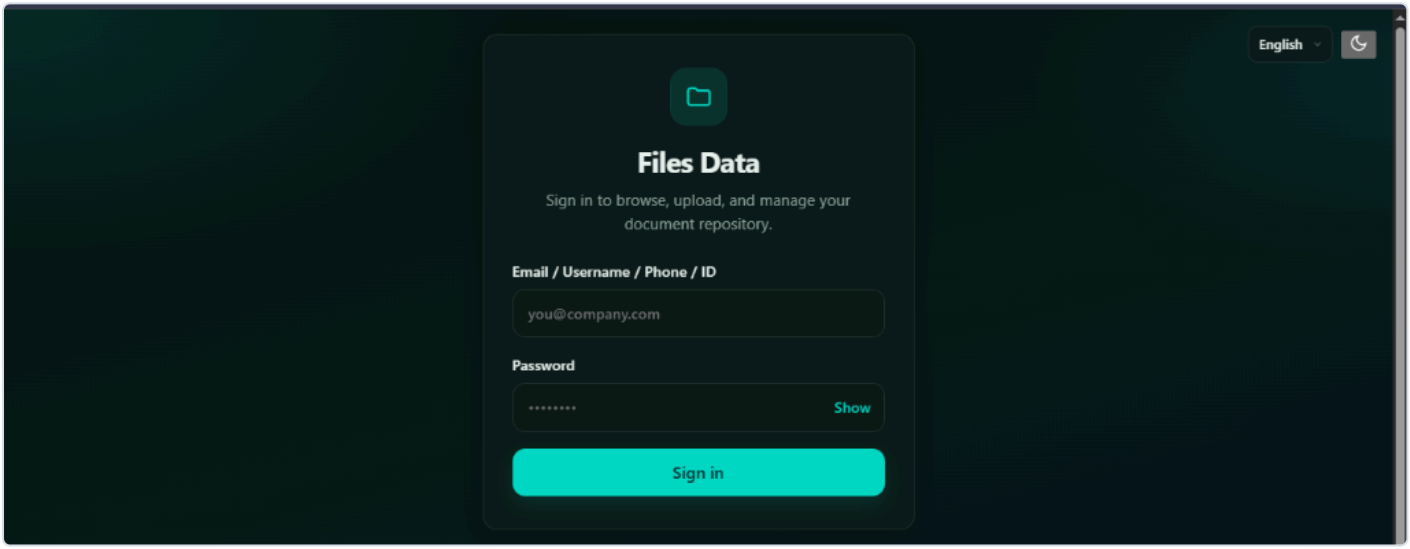
Biz1 Files Data is an enterprise cloud document repository and digital asset management platform designed to store, organize, preview, and audit business documents, digital signatures, and communication attachments.

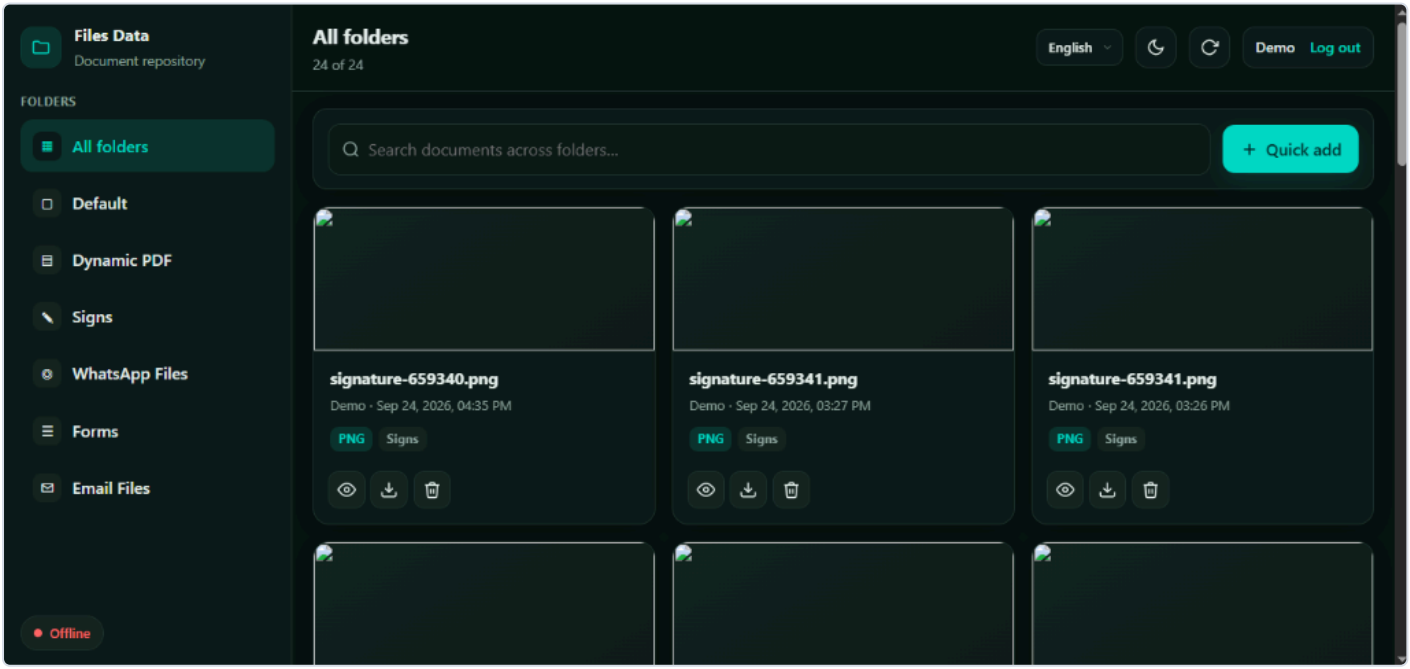
- **Folder Hierarchy & Categorization:** Structured document tree organizing files across dedicated folders (All folders: 25 of 25, Default, Dynamic PDF, Signs, WhatsApp Files, Forms, Email Files).
- **Interactive File Cards & Actions:** Visual asset cards featuring direct document previews, timestamps (e.g. Sep 24, 2026), format tags (PNG, Signs), and rapid action triggers (Preview, Download, Delete).
- **Instant Full-Text Search & Quick Upload:** Universal cross-folder document search bar and instant new file ingestion via one-click `+ Quick add` control.

LIVE LOGIN URL: https://apps.bull36.com/demo/files/login.html

SYSTEM ACCESS CREDENTIALS · ACTIVE TEST ACCESS

Parameter / Control	Value / Format	Description & Instructions
Login Portal URL	https://apps.bull36.com/demo/files/login.html	Direct web access URL to the Files Data document repository portal.
Login Username	`demo@jlaw.co.il`	Valid operator account identifier to authenticate into the platform.
Login Password	`pass0364`	Standard demo passkey; click password visibility toggle to view input.

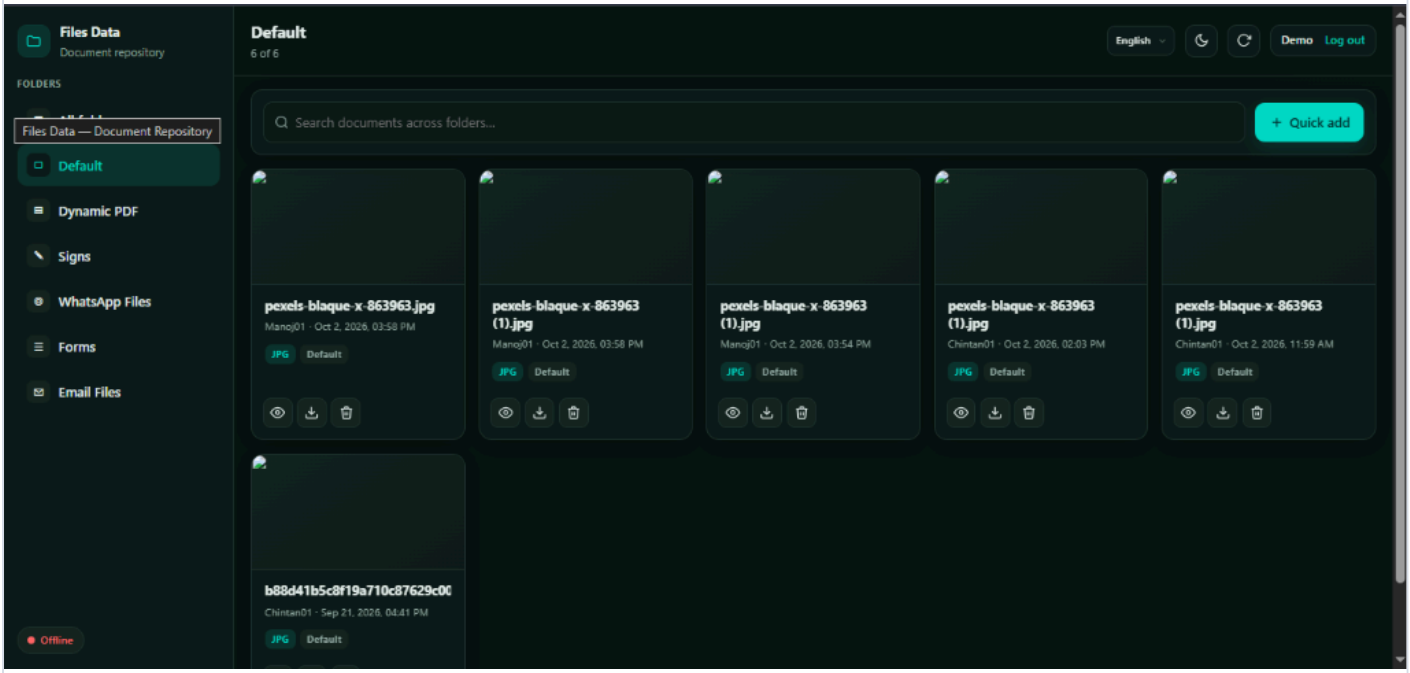




• Default Storage Bucket & Multi-Format Asset Registry

STORAGE DIRECTORY

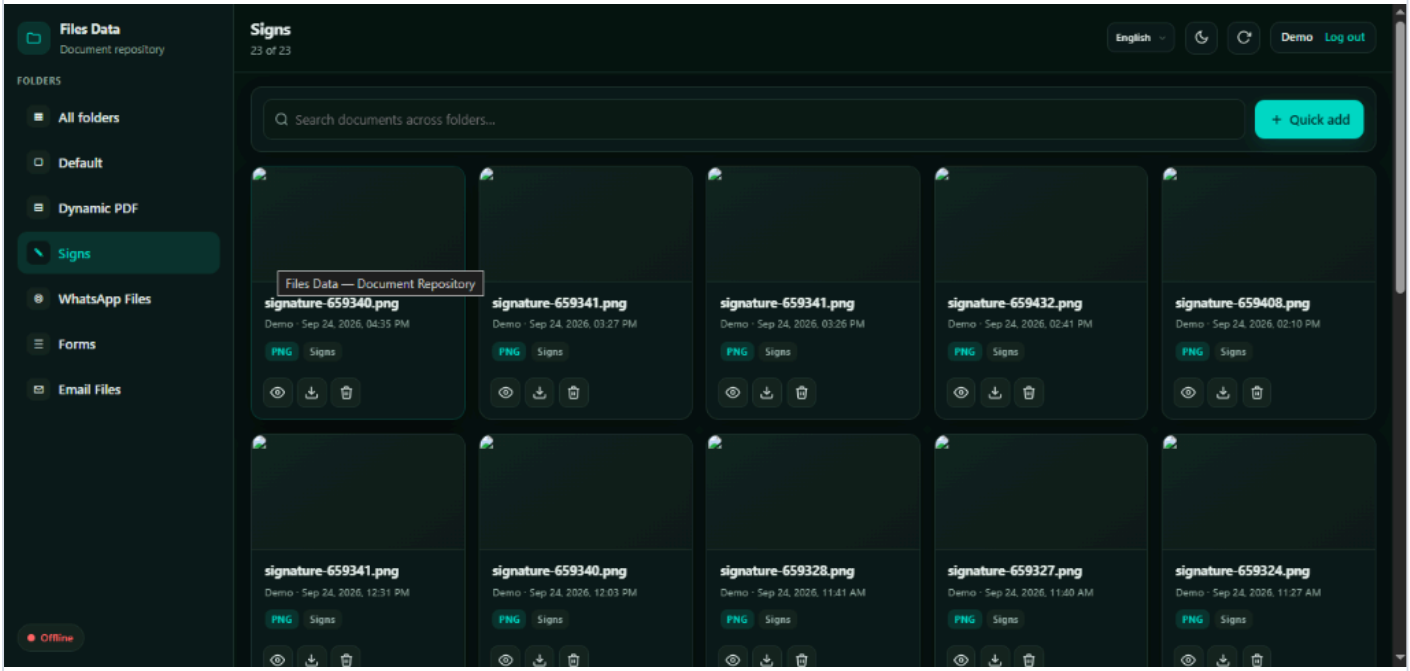
- **Dedicated Folder Architecture:** Categorizes unstructured business media, receipts, and brand assets into isolated folder directories (Default: 6 of 6 files) with dedicated format badges.
- **Interactive Asset Control Cards:** Each asset card presents file name, upload author (e.g., Manoj01, Chintan01), precise timestamp, JPG tag, and one-click preview, download, and deletion triggers.
- **Unified Ingestion & Search Engine:** Top utility bar provides universal cross-directory text search and instant media ingestion through the high-visibility `+ Quick add` upload controller.



• Digital Signature Vault & Audit Trail Repository

SECURITY & AUDIT

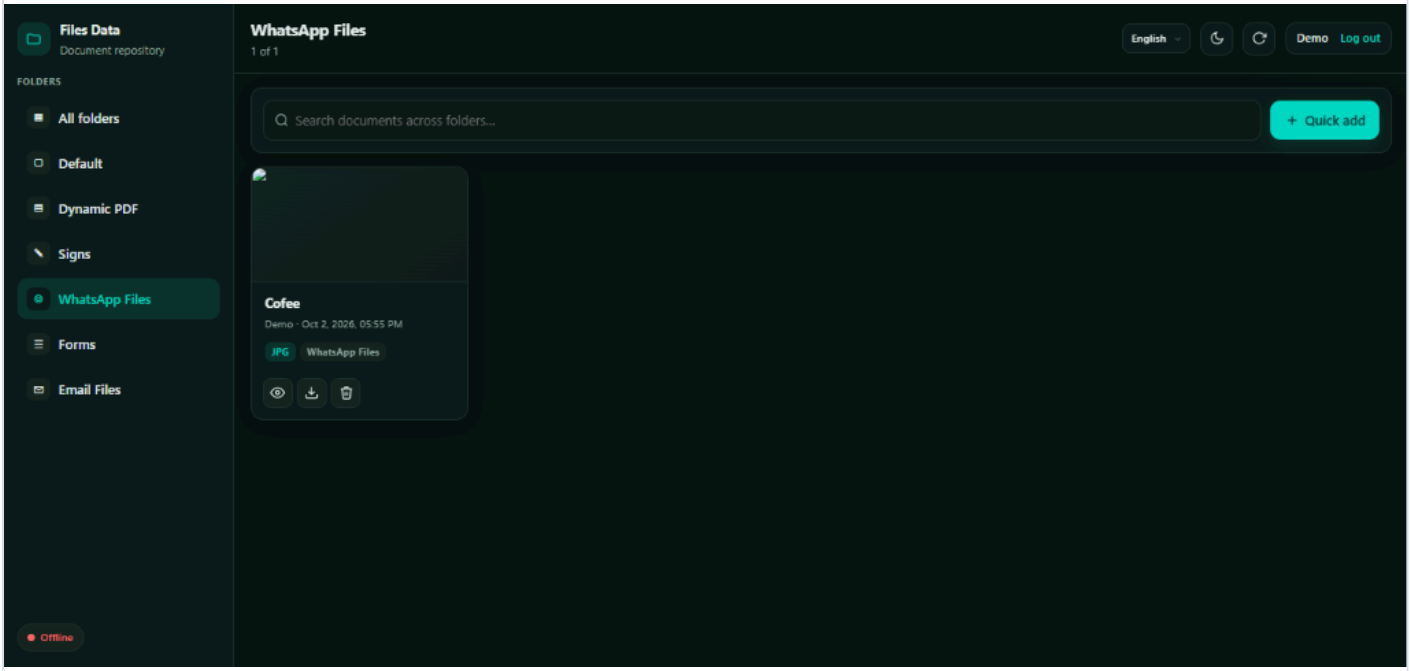
- **Centralized E-Signature Repository:** Dedicated secure folder storing 23+ timestamped digital signatures (`signature-*.png`) captured across customer self-service portals and invoicing workflows.
- **Audit Timestamps & Verification:** Displays upload creator, capture date, precise time stamp (e.g., Sep 24, 2026, 04:35 PM), and PNG formatting labels for complete legal and evidentiary compliance.
- **Direct Asset Actions:** Granular card-level controls allow compliance officers and managers to visually inspect signature strokes, download raw PNG assets, or purge obsolete sign-offs.



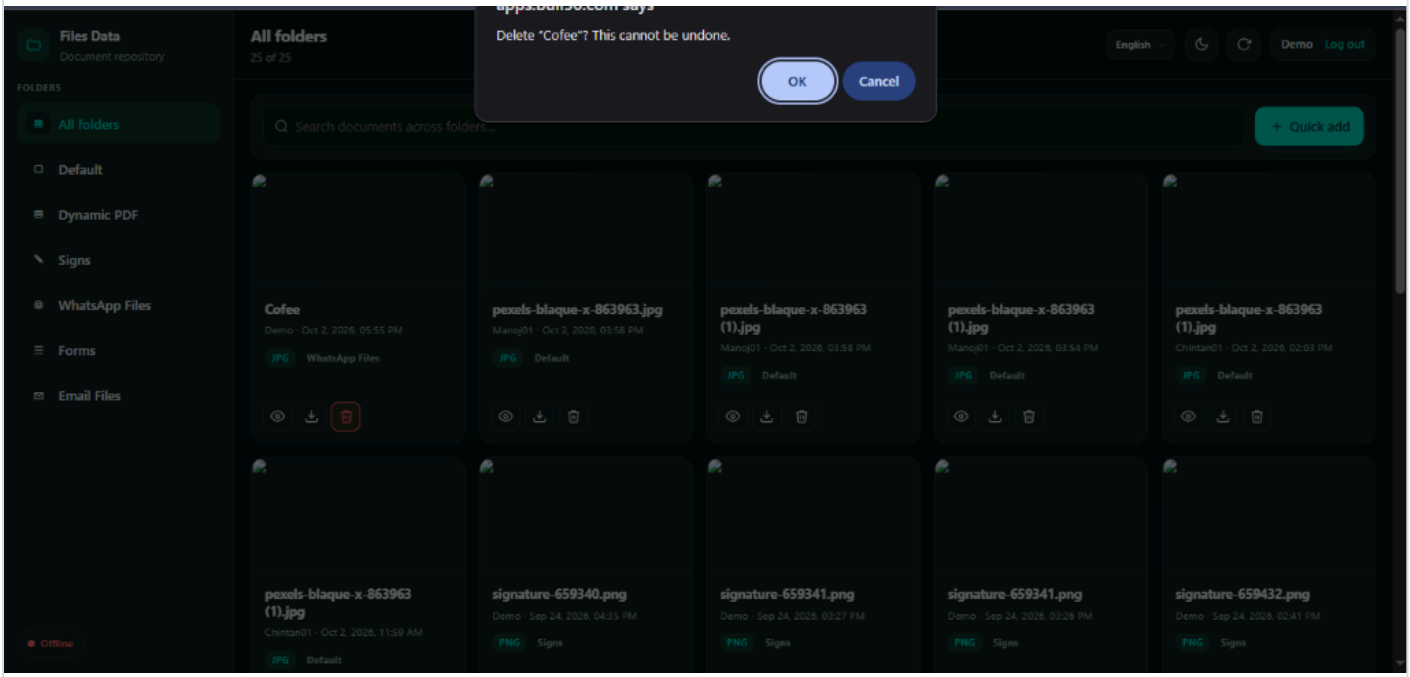
• WhatsApp Media Attachments & Outbound Dispatch Hub

COMMUNICATION MEDIA

- **Dedicated Messaging Asset Bucket:** Automatically captures and indexes inbound and outbound media exchanged via WhatsApp business reminders, invoices, and payment confirmations.
- **Granular Asset Metadata:** Shows client attachment labels (e.g., Cofee), sender attribution, dispatch timestamps (Oct 2, 2026, 05:55 PM), and categorized folder tagging.
- **Single-Click Asset Retrieval:** Operators can immediately preview sent attachments in high-resolution, download them for external audit, or manage retention schedules.



• Global Repository Overview & Irreversible Deletion Safeguard Modal

GOVERNANCE & SAFETY


- **Comprehensive Cross-Folder Aggregation:** Unified "All folders" master catalog displaying the complete portfolio of 25 active system assets spanning all directories in a responsive grid layout.
- **Irreversible Action Confirmation:** Secure browser-level confirmation modal (`Delete "Cofee"? This cannot be undone`) preventing accidental destruction of critical corporate assets.
- **Real-Time Directory Sync & Health:** Live connection telemetry, language localization toggles, light/dark themes, and instant directory re-synchronization.
