Biz1 Projects Platform Overview

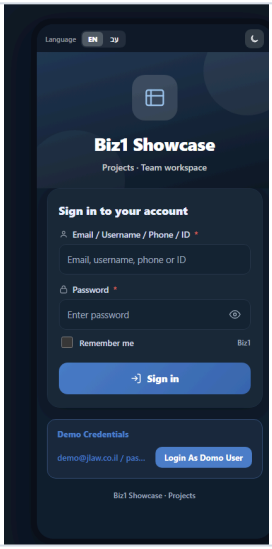
Biz1 Projects is an enterprise project directory and team workspace platform designed to manage client projects, monitor team allocation, track milestone delivery timelines, and maintain operational visibility in one central system.

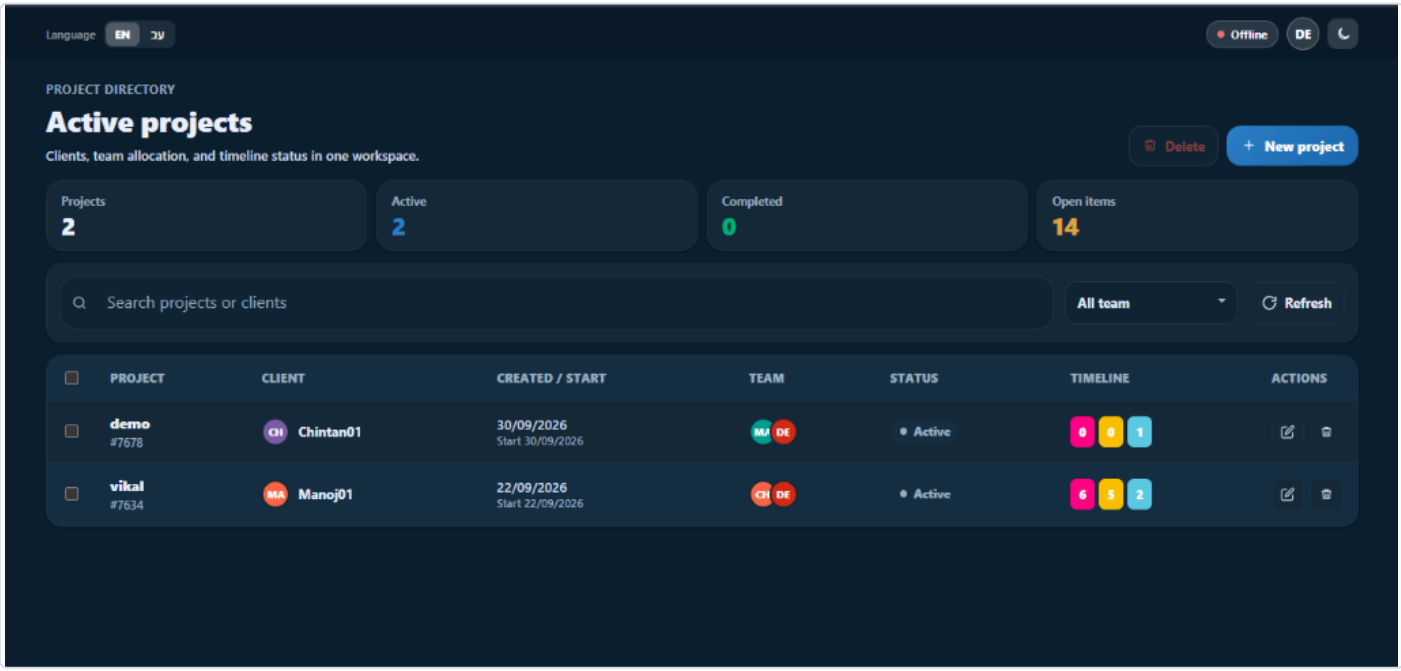
- **Active Project Directory:** Comprehensive project catalog tracking client identifiers, project codes (e.g., #7678, #7634), start dates, assigned personnel avatars, and real-time operational status.
- **Multi-Phase Timeline & Task Pipeline:** Color-coded milestone badges (Pending, In Progress, Complete) with direct visibility into open items and delivery progress per engagement.
- **Live Operational KPIs & Global Filtering:** Quick summary metric cards (Total Projects, Active, Completed, Open Items: 14) paired with instant full-text search and team-member filtering.

LIVE LOGIN URL: https://apps.bull36.com/demo/project/login.html

System Access Credentials · Active Test Access

Parameter / Control	Value / Format	Description & Instructions
Login Portal URL	https://apps.bull36.com/demo/project/login.html	Direct web access URL to the Projects login and workspace portal.
Login Username	`demo@jlaw.co.il`	Valid operator account identifier to authenticate into the platform.
Login Password	`pass0364`	Standard demo passkey; click password visibility toggle to view input.

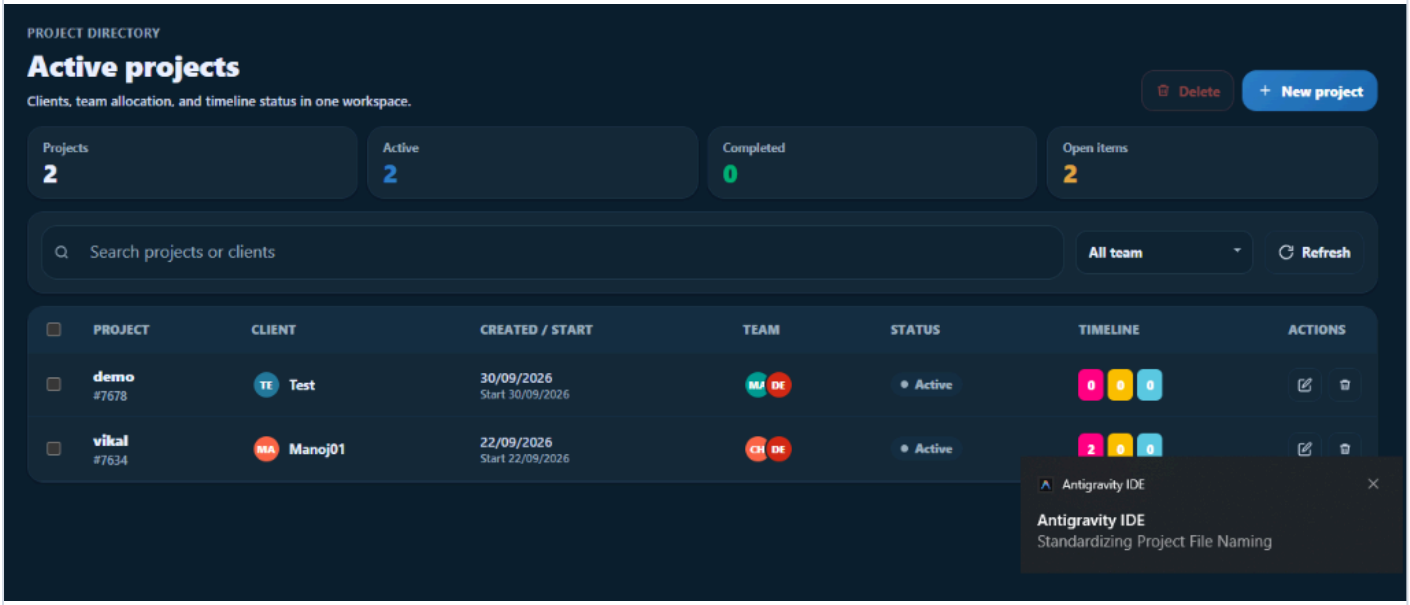




Active Projects Directory Ledger & Milestone Telemetry

PROJECT DIRECTORY

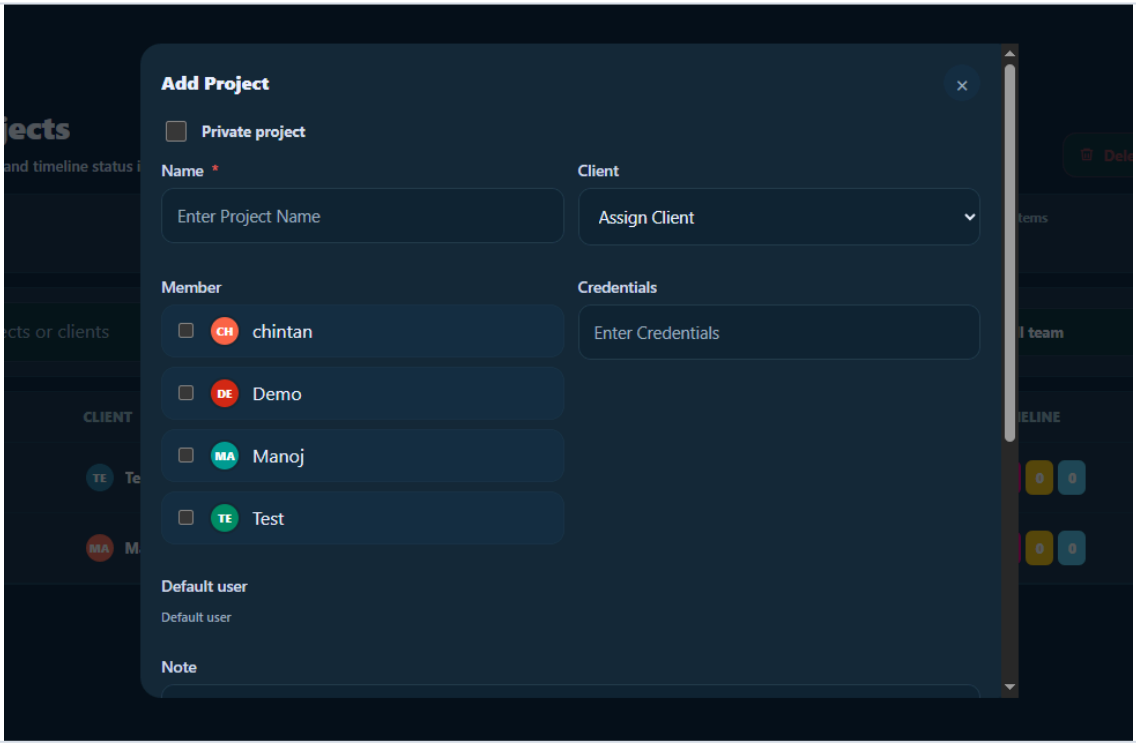
- **Project Status Ledger:** Centralized table cataloging engagement codes (`#7678` , `#7634`), client associations, start dates, and live operational status indicators.
- **Team Avatars & Milestone Pills:** Visual team assignment badges alongside triple-segmented timeline telemetry capsules monitoring milestone completion.
- **High-Level KPI Cards:** Header metric counters summarizing total projects, active engagements, completed portfolios, and open delivery items.



Add Project Modal & Team Member Allocation Controls

PROJECT PROVISIONING

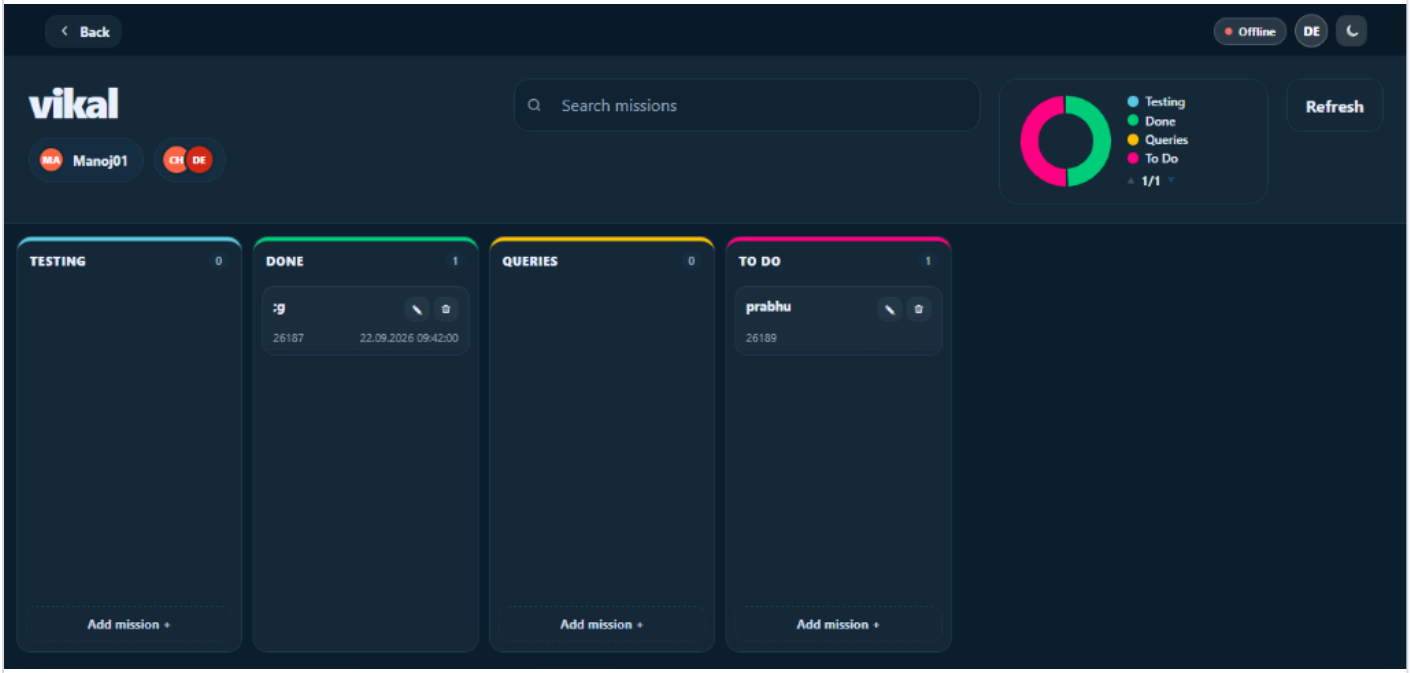
- **Engagement Scoping:** Modal form supporting project naming, client assignment dropdown, and privacy flags (`Private project`).
- **Multi-Member Allocation:** Checkbox selection matrix for staffing personnel (`chintan` , `Demo` , `Manoj` , `Test`) with default operator role designation.
- **Metadata & Permission Tags:** Dedicated fields for external access credentials, project notes, mission enablement (`Allow add missions`), and tag management.



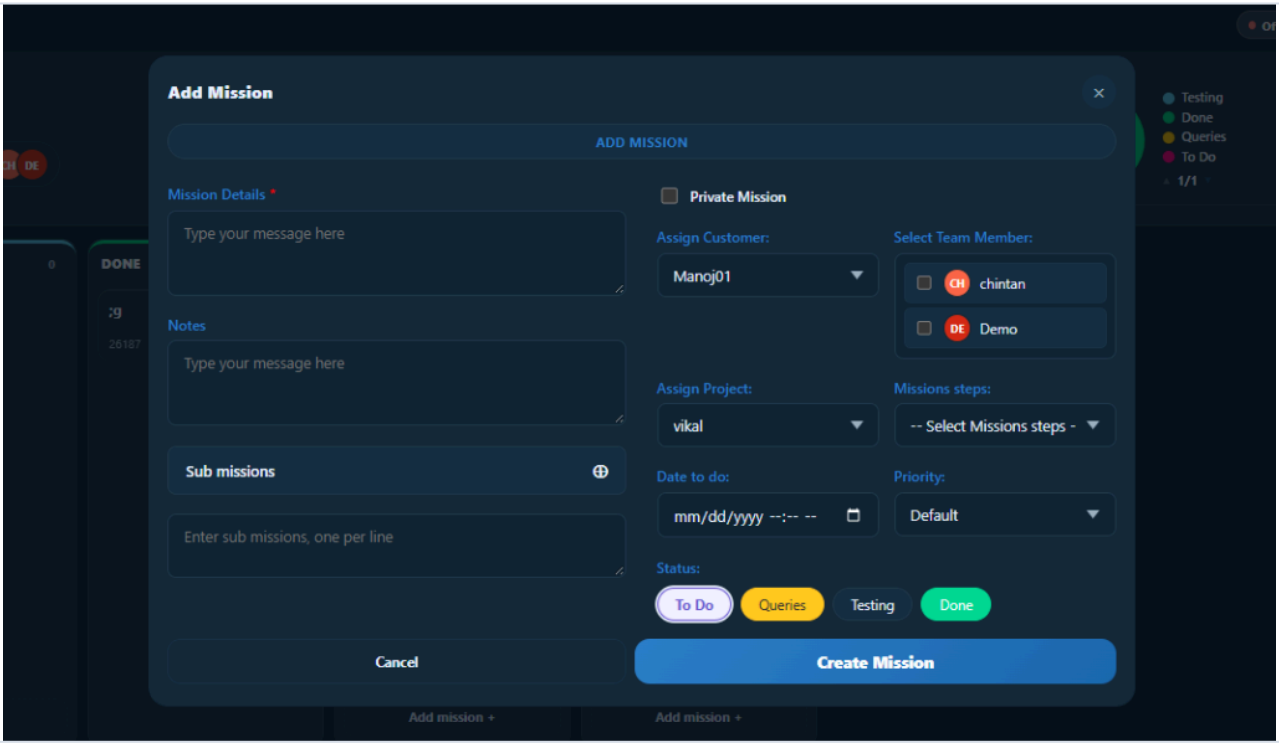
Project Mission Kanban Board & Live Progress Donut Metrics

KANBAN PIPELINE

- **4-Stage Mission Workflow:** Interactive visual columns categorizing deliverables across `TESTING`, `DONE`, `QUERIES`, and `TO DO` pipelines.
- **Progress Donut Telemetry:** Real-time circular metric chart visualizing stage distribution, completed task counts, and open query ratios.
- **Task Card Auditability:** Individual deliverable cards tracking task titles, unique mission IDs (`#26187`), completion timestamps, and direct edit/delete triggers.



Add Mission Modal, Sub-Missions & Assignment Workflow

TASK ALLOCATION


- **Detailed Deliverable Definition:** Dual text editors capturing comprehensive mission descriptions, operational notes, and line-by-line sub-mission lists.
- **Stakeholder & Personnel Routing:** Dedicated customer dropdown (`Manoj01`), project linkage (`vikal`), and team checkbox allocation.
- **Execution Timeline & Status:** Target completion date/time picker, priority ranking selector, and single-click initial stage assignment (`To Do`).
